

Ecology seminar

Each **Tuesday at 4.15 pm**, lecture room B1 (Branišovská).

The Department of Botany, University of South Bohemia, invites colleagues to attend the weekly seminars (in English)

12th March: **Zdeňka Lososová** [Masaryk University Brno]:

"Macroevolutionary patterns in European vegetation: niche conservatism rules"

19th March: **Zdeněk Janovský** [Charles University Prague]:

"The interplay between clonality, mating system and pollinators - a community and database perspective"

26th March: **Nagore G. Medina** [Autonomous University of Madrid, Spain]:

"Exploring local and regional causes of species diversity and distributions"

2nd April: **Gianluigi Ottaviani** [Institute of Botany, Academy of Sciences, Trebon]:

"Towards functional island biogeography: a plant trait-based approach for island biology"

9th April: **Luisa Conti** [Czech University of Life Sciences, Prague; Institute of Botany, Academy of Sciences, Trebon]:

"Understanding ecological processes through plant functional patterns"

16th April: **Ondřej Mudrák** [Institute of Botany, Academy of Sciences, Trebon]:

"Multitrophic interactions in succession on Sokolov post mining sites"

More info: Lars Götzenberger (lgotzenberger@prf.jcu.cz) and Jan Lepš (suspa@prf.jcu.cz), seminar organizers. **Check for possible changes on the Department of Botany webpage** (<http://botanika.prf.jcu.cz/seminareEco.php>)!

Location: The lecture room B1, Faculty of Science, University of South Bohemia, Building B, Branišovská 31, České Budějovice.
